Our Services

Tetron Technologies is a strategic technology and talent partner: we build products and we build teams.

Custom Software Development
Scalable, production-ready systems built with agile methods.

SaaS & Enterprise Apps
Platforms and enterprise applications that drive growth and efficiency.

Web Development
High-performance web solutions for startups and enterprises.

IT Support & Consulting
Optimising IT operations and guiding digital transformation.

Recruitment & Staffing
Client-specific resource deployment and HR outsourcing.

Corporate Training
Industry-ready talent through training and certification.

Work That Respects Your Life

Your evenings are yours
No calls or WhatsApp instructions after office hours.

A holiday is a true break
No work pressure while you are away.

Work from home when life calls
For colleagues who live far away or are relocating: no disruption to family life, and savings in travel time and cost.

No pay cut in an emergency
We aim for zero loss of pay during emergency leave.

Flexible working hours
Own your work and deliver it on your schedule.

Family and health come first
Put family and health first, without worrying about pay.

Trust, not interference: promoters leave day-to-day work to trusted managers, and our people treat Tetron as their own.
